

MOHAMMED RAGEH

Software Engineer | Cross-Platform (Flutter) & Backend (Python) | End-to-End Development

+201111400729 @ mohammedragehxxz@gmail.com linkedin.com/in/mohammedrageh Portfolio Cairo, Egypt

EXPERIENCE & PROJECTS

Flutter Developer

3I Vision

Jan 2024 - Present Giza, Egypt (Hybrid)

- Delivered AI-driven mobile apps for people detection and license plate recognition.
- Improved startup performance by 30% through optimization and lazy-loading strategy.
- Applied Clean Architecture with offline-first design using Hive/SQLite and Firebase.
- Key projects: 3I Vision App, DataMind Agent, Aramco App, Adahi.

3I Vision App: [App Store](#) | [Play Store](#)

DataMind Agent: [App Store](#) | [Play Store](#)

Aramco App: *Private – Saudi Aramco data management; sample registration, camera scanning, SQLite, Excel export, Zebra integration.*

Adahi: [Play Store](#)

Software Engineer

Cogens

Jan 2025 - Present Canada (Remote)

- Scaled a multi-app school ecosystem (Parent, Student, Staff, Bus, Admin, Vendor).
- Built Django multi-tenant backend, real-time notifications, and billing/report workflows.
- Implemented token/JWT auth, role-based access, and standardized API contracts across modules.

Cogens Parent: [App Store](#) | [Play Store](#)

Cogens Student: [App Store](#) | [Play Store](#)

Cogens Staff: [App Store](#) | [Play Store](#)

Cogens Bus Driver: [App Store](#) | [Play Store](#)

MACLINK: [App Store](#) | [Play Store](#)

Self-Employed

Jan 2023 - Present Remote

- Shipped production apps with maps, live tracking, localization, secure payments, and end-to-end backend integration.

NooN: [App Store](#)

Yama Vet: [App Store](#)

Flutter Developer

PixellCode

May 2025 Remote (Part-time)

- Building a large-scale app with maps, real-time tracking, Agora calls, job listings, and integrated bank payment workflows.

Arrow_Tech

August 2023

- Developed and maintained Flutter apps using Clean Architecture, REST APIs, Firebase, and BLoC/Provider state management.

EDUCATION

 Bachelor's in Computer and Information Science

Assiut University | Graduated: June 2024 | GPA: 3.19 / 4.0 (Very Good)

CERTIFICATIONS

- The Complete Flutter & Dart - Route (2023)
- Multi-Modular & Clean Architecture - Udemy (2023)

SUMMARY

Software Engineer with 2+ years of experience building scalable, high-performance mobile and backend systems. Specialized in Flutter and Python (Django, FastAPI, Flask), with strong ownership of architecture, deployment, and production quality.

SKILLS

Mobile: Flutter, Dart, State Management, Debugging, SDLC

Backend: Python, Django/DRF, FastAPI, Flask, REST APIs

Data: PostgreSQL, MySQL, SQLite, Hive

DevOps: Docker, Nginx, CI/CD, GitHub Actions, Codemagic

Cloud & Hosting: Firebase (Auth, FCM, Firestore), AWS (EC2/S3 basics), Hetzner Cloud (VPS)

Domains: Education Systems, AI-Powered Computer Vision, ERP, IoT & Security Automation

Clean Architecture Performance

AI Integration End-to-End Delivery

Soft Skills

Client Communication

Stakeholder Management

Problem Solving Team Collaboration

Ownership Adaptability

Time Management
